DETAILED ACTION

1. The applicants canceled claims 1-31 and added new claims 31-113 in the amendment filed on 5/13/04.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 31-74 and 112, drawn to comparing an input name and a stored name for matching, classified in class 707, subclass 6.
 - II. Claims 75-111 and 113, drawn to an indication of whether an input name belongs to a particular culture for name classification, classified in class 707, subclass 101.
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as comparing and matching an input name and a stored name, while invention II has utility such as classifying an input name to a particular culture. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim
